CAREER OBJECTIVE

Results-driven Full-Stack Developer with continuing learning and growth in both front-end and back-end technologies. Seeking a challenging role where I can contribute to the development lifecycle, from concept to deployment.

PROJECTS

Golf Tracker

Developer, Designer, Creator

- Implement JavaScript and Node.JS to build a well-performing application.
- Used Bootstrap to create a user-friendly interface.
- Integrated MongoDB as the database to store and secure the user's data.

Yelp Camp

Developer, Designer, Project Editor

📅 May 2019 - June 2019

- Leveraged JavaScript and Node.js to enhance the functionality and performance of the project.
- Integrated multiple APIs to enrich the projects functionality and expanded features for an enhanced user experience.
- Applied Bootstrap to create a aesthetic, user-friendly environment.
- Implemented MongoDB as the database to securely manage and store user data.

Lifting Buddy

Developer, Designer, Project Manager

- Utilized MySQL as the database to store and secure user data.
- Integrated Python and Flask to develop a dynamic web application, leveraging the power of the Flask framework to enhance the project's backend functionality.
- Employed Trello to manage and monitor project features.

WORK EXPERIENCE

General Custodian

Meadville Medical Center

📅 July 2023 - current   📍 Meadville, PA

- Systematically prioritize completion of floor maintenance based on usage patterns.
- Demonstrate effective time management skills in executing various responsibilities within the hospital.
- Troubleshoot equipment malfunctions and utilize problem-solving for other issues within the custodial role.
